Tread Softly Native Botanicals Vodka

Region: Victoria
Closure: T-top Stopper
Alcohol: 37%
Pack Size: 6 Bottle Pack

Summary: As one of Australia's most progressively conscious brands, Tread Softly is committed to reducing their carbon footprint and so commits to planting Australian Native Tree for every 6 bottles sold. Since launching in 2019 they have been responsible for planting over 500,000 native trees in conjunction with Carbon Neutral, ensuring the future of the environment is in good hands.

Our next goal is to hit a target of one million trees and in the process building a Tread Softly Forest. Every six bottles sold of the Tread Softly range will ensure another tree is planted. You raise a glass, we raise a forest.

Tasting Note: Imbued with finger lime and pepperleaf this is a very pure vodka with subtle citrus notes from the finger lime before a lifted smooth finish. Excellent martini vodka or suitable to premium mixers.
